Phone: (+44) 7821262596

PERSONAL SUMMARY

A computer science graduate with systematic thinking and professional communication skills obtained through specialised training and involvement in various student activities in Mahidol University. Undertook the responsibility of being a developer whilst maintaining a strong academic foundation with profound technical skills, especially in website development and Android development. A hard-working, collaborative and passionate individual with problem-solving skills to effectively accomplish assignments and to derive precise and sound decisions in creative manner.

TECHNICAL SKILLS

- Mobile development with Android SDK
- Website development with PHP, Node.js, JavaScript, jQuery, Python, CakePHP Framework
- Software development with C, C++, and Java
- Database application and interface with SQL and NoSQL
- PaaS implementation with Heroku, Parse, AWS, and Microsoft Azure
- DaaS implementation with mLab (MongoDB)

EDUCATION

Sep 2020 (expected)	MSc, Computing Science, University of Glasgow
Jun 2016	BSc, Computer Science, Faculty of Information and Communication Technology, Mahidol University
Feb 2011	Math - English, Assumption

EXPERIENCE

CONTESTS

2016	National Software Contest 2016, <i>NECTEC</i> <ul style="list-style-type: none">• Thailand software contest for student and undergraduate
2014	National Software Contest 2014, <i>NECTEC</i>
2014	Android Developer Camp, <i>GDG Thailand</i> <ul style="list-style-type: none">• With the cooperation of Google, GDG Thailand and King Mongkut's University of Technology Thonburi form the Android camp with the purpose of enhancing Android application development skill
2013	Samsung Galaxy Developer Academy, <i>Samsung</i> <ul style="list-style-type: none">• Android application contest with the cooperation of Samsung Electronics Co., Ltd. and Software Park Thailand

WORK EXPERIENCE

Jan 2018 - Jun 2019	Technologist, <i>Tellscore Co., Ltd</i> <ul style="list-style-type: none">• Researched a new technology and social networking, and developed core features of the Tellscore's website which is one product of Redlab Co., Ltd• Gave a consult in term of programming techniques and design a system with the purpose of system optimisation• Developed RESTful API, which are connected with Social Networks' API such as Facebook, by using Node.js and MongoDB
Aug 2016 - Dec 2017	Technologist, <i>Redlab Co., Ltd.</i> <ul style="list-style-type: none">• Developed well-known companies' website, such as Siam Commercial Bank (SCB), TMB Foundation, Kasikornbank, and One Asset Management, by using PHP language and CakePHP as a framework with security and performance concerned.

- | | |
|----------------|---|
| Jul - Aug 2016 | <p>Freelance Web Developer, <i>P.S. Cosmoplast Ltd., Part.</i></p> <ul style="list-style-type: none"> • Developed and designed P.S. Cosmoplast website by using Laravel framework, HTML5, CSS3, jQuery, and Bootstrap |
| Jun - Jul 2016 | <p>Freelance Android App Developer, <i>Ricoh Thailand</i></p> <ul style="list-style-type: none"> • Developed and designed an Android application which is able to identify a user, track field engineers' location, update machine location, calculate the distance between 2 locations, show task-work, and interact with a database. |
| Jun - Aug 2014 | <p>Web developer (Internship), <i>Agelus Interactive Co., Ltd.</i></p> <ul style="list-style-type: none"> • Developed greenroof Thailand website by using Laravel framework, HTML5, CSS3, PHP, and jQuery. http://www.greenroof.in.th/ |

AWARDS

- | | |
|------|---|
| 2014 | <p>Good Application Award, <i>National Software Contest 2014</i></p> <ul style="list-style-type: none"> • ZooEduGuide is an Android application that combines significant factors which help to learn and to provide information on wildlife as well as natural conservation. The application makes it convenient for users to learn about animals and for the zoos to allocate data |
| 2014 | <p>First Runner-up Android Developer, <i>Android Developer Camp</i></p> <ul style="list-style-type: none"> • Whack The Head is an Android application that comes up with a concept likes to whack a mole. A player can enjoy the application by using someone picture as mole. |
